Rescuing the Dead.

Seventy-One Bodies Already Recovered.

A NUMBER OF OTHERS MISSING.

It is Now Believed That About One Hundred and Fifteen People Perished by the Steamboat Disaster at Lake City, Minnesota—Further Details of the Great Calamity.

Lake City, Minn., July 15.—The excitement consequent upon the awful events of Sunday night has nearly subsided, and the scene of the wreck of the steamer Sea Wing has now a prominent place in the history of the greatest catastrophe that ever occurred in this vicinity. All day long the rescuing crews have been at work at the wreck in the continued search for bodies of the victims.

Two small steamers attached lines to the overturned Sea Wing and succeeded in hauling her nearer the shore, where, during the day, the corps of volunteers with axes and picks succeeded in cutting away all of the inner walls and partitions of the two decks of the boat, leaving only the bare hull which will probably be blown up with dynamite.

The rescuing parties have succeeded in taking seventeen more bodies from the wrecked steamer, which in addition to the fifty-two taken to Red Wing, one picked up on the shore of the lake and another a mile above the wreck, brings the total number of bodies recovered up to seventy-one. The body picked up near Lake City was that of a woman, yet unidentified. The one found above the wreck was that of John Peterson, of Red Wing.

All day long the First battery of artillery, of St. Paul, were firing over the wrecks at intervals of fifteen minutes in the hope of raising some of the bodies yet on the bottom of the lake away from the direct vicinity of the wreck.

It is now reported that the officers of the ill-fated steamer were more or less under the influence of liquor when the boat started from Lake City on the home journey. The number known to have been saved is now estimated at seventy-five, which leaves about 115 people thought to have perished in the wreck. This number will undoubtedly be diminished as full returns come in from those who escaped.

From all that can be learned, the storm did not seriously effect any other locality than the vicinity of Lake City. Some of the crops on the farms near by, which were in the path of the hurricane, were more or less damaged by wind and hail. The damage to buildings in Lake City will probably not exceed \$100,000, all told, and may fall considerably below that. The bodies taken out yesterday were taken to Red Wing by a steamer where they will be identified as fast as possible.

TRAVELING SALESMAN MISSING.

Mysterious Disappearance of M. S. Marks, at Indianapolis, Ind.

INDIANAPOLIS, July 15.—M. S. Marks, traveling salesman for Moore & Company, of Rochester, N. Y., has disappeared from the Bates house, in this city, in a manner to cause the keenest anxiety as to his whereabouts. He came here last Monday, and after opening and arranging for display a lot of samples in his room, went down into the rotunda.

He told one of the clerks that he was going into the city to see a few customers, and since then there has been no trace of his whereabouts. Saturday the detectives were notified but so far they have not obtained evidence enough upon which to construct a theory. He is 26 years of age and not known to be a drinking man.

BODILY WORK in Perry County, Ky.

LEXINGTON, Ky., July 15.—It is reported that July 8 a constable's posse near Hazard, Perry county, Ky., in search of Buck and Zach Fugate, two desperadoes, had a conflict with their band in the mountains. The constable and one of his assistants were killed and two others were wounded, but Buck Fugate was captured and lodged in jail at Hazard. His friends threaten to rescue him and further bloodshed is feared.

Charged With Murder.

WILKESBARRE, Pa., July 15.—Thomas Martin, John McNulty and John McNeil, miners at Pittston, were arrested yesterday for the murder of James Hughes, of Oregon, who died after a beating inflicted by the three men a few days ago.

Only Probably Guilty.

PORTLAND, Me., July 15.—Mark J. Sullivan, for refusing and neglecting to perform the duties of census enumerator after he was appointed, was yesterday found probably guilty and held in \$1,000 for trial in the United States district court.

Deed of Two Dastards.

PROVIDENCE, R. I., July 15.—Mrs. Amy E. Thomas was last night assaulted in a lot near Benedict Bend by two men. One of them threw carbolic acid at her, striking her breast and burning her badly. Her assailants escaped.

Fortunate Strikers.

BOSTON, Mass., July 15.—Contractor Donahue, of Cambridge, yesterday conceded the demands of building laborers' unions, Nos. 6 and 10, and all his laborers will hereafter receive twenty-five cents per hour.

Building Falls on Four Girls.

BOSTON, July 15.—An old barn on Otis street, Cambridge, in process of demolition, fell yesterday, burying four girls who were gathering kindling wood in the ruins. Nora Grady, aged 21, had her hip dislocated and head badly bruised; Mary Sheehan, aged 8, and Mary Cueting, aged 7, were badly bruised about the head and shoulders and Celia Quinn was injured internally.

TROOPS FOR PERRY.

Judge Lilly Consents to Hold Court in the Mountains of Kentucky.

FRANKFORT, Ky., July 15.—Governor Buckner has ordered a company of state troops to accompany Judge Lilly to Hazard, the county seat of Perry, to protect him during the holding of court there. The last legislature passed a law giving the governor power to send troops to this section of the state if they were necessary to preserve the dignity of the court.

Capt. E. H. Gaither, of Harrodsburg, will have charge of the company of state guards, composed of a captain, two lieutenants, a surgeon, quartermaster and commissary, four non-commissioned officers and sixteen privates. They will leave Jackson, in Breathitt county, the 21st inst., and carry Judge Lilly thence to Hazard, thirty-four miles.

It is feared that there will be trouble when circuit court begins, July 28, at Hazard, under the charge of Judge Lilly, the circuit judge of that district. It will be the first visit of Judge Lilly to that county since his life was threatened. The burning of the court house by incendiaries two weeks ago is a signal of trouble.

A Rich Gold Strike.

DENVER, Colo., July 15.—News has reached here from Launders, Wyo., which says that two boys, Phil Horsch and Sam Davis, 14 and 17 years old, respectively, who were working mine claims near the famous Buckeye mine, twenty miles south of Launders, struck ore on Saturday which assays from \$23,000 to \$40,000 per ton in free gold. Miners have started for the new fields by the hundreds. This is the richest strike ever made in the territory.

More Bloodshed Expected.

PINE BLUFF, Ark., July 15.—C. L. and T. P. Huddystone, brothers, were shot and killed near here Saturday night by Charles Parrott. The shooting was the result of an old feud between the two families, who are numerous and wealthy. There are four more Huddystone brothers, and as they swear vengeance, and as the Parrots swear to stand by their kinsman, considerable more bloodshed is expected.

Fire Loss in Dallas, Texas.

DALLAS, Tex., July 15.—Fire this morning destroyed the three-story brick building at Nos. 607 and 609 Commerce street, occupied by the general offices of the Texas and Pacific railway, and before it could be controlled, burned the Easton building, adjoining, occupied by the Merchants' Exchange and a number of offices. Loss estimated between \$125,000 and \$150,000; fully insured.

Not a Winter White Trunk.

CITY OF MEXICO, July 14.—J. Neil Adams, an American, shot and killed Carlos Largue, a waiter at the National theater restaurant, Sunday afternoon. The murder was a most heartless one. Adams was drunk and became exasperated because Largue would not wait upon him. Adams is under arrest.

Four Laborers Drowned.

LANCASTER, N. H., July 15.—Four Italian railroad laborers were drowned last night by the upsetting of a skin in the Connecticut river, near Stratford Hollow. The water was only five feet deep, and had the men stood up they could have waded ashore. Their names and residence are unknown.

Gen. Fremont's Funeral.

NEW YORK, July 15.—The funeral of the late Gen. John C. Fremont will take place on Wednesday morning next, at 10 o'clock, from St. Ignatius church in West Forty-fifth street. The services will be conducted by the Rev. Dr. Arthur Ritchie, the pastor.

Only a Natural Death.

BOSTON, July 15.—Medical Examiner Draper made an examination of the body of Mrs. Elizabeth Cleveland, who died at her home, at No. 5 Troy street, yesterday, under rather suspicious circumstances, and found that her death was due to natural causes.

Thrown From a Freight Train.

LANCASTER, Pa., July 15.—James D. Ward, a drover, was thrown from a freight train near Wilmer this morning. He was terribly mangled and died within a few moments. He formerly belonged in Chicago. He was en route to Philadelphia.

Charged With Murder.

WILKESBARRE, Pa., July 15.—Thomas Martin, John McNulty and John McNeil, miners at Pittston, were arrested yesterday for the murder of James Hughes, of Oregon, who died after a beating inflicted by the three men a few days ago.

Only Probably Guilty.

PORTLAND, Me., July 15.—Mark J. Sullivan, for refusing and neglecting to perform the duties of census enumerator after he was appointed, was yesterday found probably guilty and held in \$1,000 for trial in the United States district court.

PROVIDENCE, R. I., July 15.—Mrs. Amy E. Thomas was last night assaulted in a lot near Benedict Bend by two men. One of them threw carbolic acid at her, striking her breast and burning her badly. Her assailants escaped.

Fortunate Strikers.

BOSTON, Mass., July 15.—Contractor Donahue, of Cambridge, yesterday conceded the demands of building laborers' unions, Nos. 6 and 10, and all his laborers will hereafter receive twenty-five cents per hour.

Building Falls on Four Girls.

BOSTON, July 15.—An old barn on Otis street, Cambridge, in process of demolition, fell yesterday, burying four girls who were gathering kindling wood in the ruins. Nora Grady, aged 21, had her hip dislocated and head badly bruised; Mary Sheehan, aged 8, and Mary Cueting, aged 7, were badly bruised about the head and shoulders and Celia Quinn was injured internally.

Business Block Burned.

LEAMINGTON, Ont., July 15.—The principal business block in the village of Wheatley, nine miles from here, was destroyed by fire Saturday night. Total loss \$40,000; insurance and origin of the fire unknown.

Railroad Collision.

A Dozen People Injured, Several Seriously,

NEAR BLOOMINGTON, INDIANA.

A Local Freight Train on the Louisville, New Albany and Chicago Railroad in Collision With an Accommodation Train—List of the Victims.

BLOOMINGTON, July 15.—At 8:15, as the local freight on the Louisville, New Albany and Chicago was going down Smithville hill, it came in collision with the accommodation from French Lick. The accommodation was demolished, the several freight cars smashed and a dozen passengers injured, some fatally.

Conductor William Brown, in the baggage car, was crushed with trunks. He hardly can recover. Grant Johnson, of the Monon offices in Chicago, had his head and back crushed very dangerously. Billy Mitchell, of Indianapolis, conductor of the air line, had his wrist broken.

Henry Whitsell Enger was dangerously hurt in the back. James Myers, engineer on the accommodation, was cut in the head and face. Mrs. Patton, Smithville; Engineer Hendrickson of the freight; Jeff. Robertson, brakeman; Everett Foster and wife, Worthington; Ada Pearson, Bedford; David Warren, Bloomington; Charles Marvin, conductor on the freight; W. M. Baggeley, Paoli; Thomas Andrews, Bloomington; Alice Walla, Bloomington; Kate Toffe, Indianapolis—all were more or less injured. The fault is with Conductor Marvin, who claims that his watch stopped on him.

Passenger Train Wrecked.

RICHMOND, Va., July 15.—An eastbound passenger train on the James River division of the Chesapeake and Ohio railroad, yesterday, ran into a freight train at Gladstone, 120 miles west of this city, killing two men and injuring four others. The cause of the accident was a misplaced switch. The killed are: Fireman W. B. Holt, of Richmond, and a negro tramp who was riding on the trucks of the baggage car. The injured are: Engineer William Cleow and Fireman W. G. Miller, both of Richmond, ankle slightly hurt; J. E. Turner, clerk in the Richmond railway yard, hip hurt, and Joseph Hargraves, ankle slightly hurt.

BRITISH MILITARY MOVEMENTS.

Unusual Amount of Activity to Strengthen the Defenses of Canada.

NEW YORK, July 15.—A special to The World from Ottawa says: That there is an unusual amount of activity in British military and naval circles as regards the defenses of Canada is most apparent, whatever motive may have promoted it. There is an officer of the British army in Canada just now who has been making an inspection of the Canadian Pacific railways, that he may be in a position to immediately report to the British government the capabilities of the road for the rapid transportation of troops and munitions of war from India to the Atlantic coast and vice versa.

The fortifications at British Columbia are being strengthened, and the largest fleet that has ever been stationed in the Pacific is now concentrating at Esquimalt. The fortifications at Halifax are being greatly strengthened, and the most stringent orders have just been issued to prevent any outsider obtaining information as to what is going on inside the citadel and forts at that point. In addition to this, the defenses of Halifax have, this week, been strengthened by the arrival of two large torpedo boats from England. During the present summer the adjutant general of the several military districts are to report on the state of the defenses of the section which each commands. Modern rifles, in place of the Snyder-Enfield now in use, are to be given to the militia.

It is estimated by the government that it will necessitate an expenditure of upward of \$1,000,000 to replace the arms in use with those of improved pattern, and they want to secure the most effective weapon. Several heavy pieces of ordnance are shortly to be shipped from England for the defense of British Columbia, and everything points to the fact that England is making active preparations to meet any invasion of her possessions in America.

Shot His Sweetheart, Then Himself.

READING, Pa., July 15.—Great excitement was caused at Fogleyville, Montgomery county, Sunday, by the murder of Miss Mary Brunot, aged 14, by Clinton Schunck, aged 35, and the subsequent suicide of Schunck. The two had a lover's quarrel, which was ended by Schunck shooting the girl, killing her instantly. He then shot himself through the head, inflicting a wound from which he cannot recover. The girl bore a good reputation, while the murderer was of questionable character.

Fell Under a Train.

SARATOGA SPRINGS, N. Y., July 15.—Two men were killed on the railroad near here yesterday afternoon. Joseph Matthews, conductor of a Delaware and Hudson construction train, was struck by his train. Herbert Allen, aged 17 years, of South Corinth, fell under a car and was crushed under the wheels.

A Scorching Parallel.

Some of the most scathing accusations of the Republican party one sees nowadays are from members of the g. o. p. A party must, indeed, be getting low down when its members feel called upon by every principle of right and fairness and honesty to denounce it.

Says the Pittsburgh Leader, (a Republican paper). "It is curious how fate deals with men. The telegraphic dispatches announce that Stevenson Archer, late Treasurer of the State of Maryland and ex-Chairman of the Democratic State Committee, who embezzled one hundred and thirty odd thousand dollars from the funds under his control, has been convicted and sentenced to five years in the penitentiary. With the embezzling Treasurer of her sister State and nearest neighbor in a felon's cell, how must Pennsylvania blush when she reflects that one of her ex-Treasurers is accused, without denial, of stealing from her funds double the amount, and, instead of being in the penitentiary or having proved the charges unfounded, is at the head of the Republican party of the nation, and has the effrontery to say to her, 'Here is my candidate for the highest executive office in your gift. Make Delamater Governor or suffer my displeasure.' He is a trusted and loved adviser of our pious nonentity, Benjamin Harrison, and of our still more pious millionaire Postmaster General, who takes care to fill his own pockets and grip sack with both hands, while his mouth drops precious pearls about the blessings of poverty and submission to the will of heaven under its trials. Maryland is a Southern Democratic State, but she honors herself by calling a thief a thief, while Pennsylvania, Northern State and wheel-horse of the g. o. p., elevates her accused ex-State Treasurer to the position of slave driver, puts a whip in his hand and crouches at his feet, to be submissive to his will."

The spectacle of a great party like the g. o. p. retaining at the head of its National Executive Committee a man who is practically a self-confessed embezzler must be mortifying in the extreme to the large body of honest men who are members of that party. There is but one way for the honest Republicans of Pennsylvania to redeem their party and save it from infamy and that is by rebuking such men at the polls. They will have an opportunity at the approaching election. But will they take advantage of it? And will the party throughout the land longer submit to be bossed by this embezzler?

Bringing the Question Home.

Says the Portsmouth Times: "How would the people of Scioto County like to have the Federal courts, say a Judge at Cincinnati, appoint supervisors to regulate our elections, to determine who shall vote and who shall not vote, and to overrule the officials chosen by the people, and then to have canvassers appointed by such courts to canvass and tabulate the returns from these partisan supervisors and say who is elected to Congress? What a mockery of free institutions. The people might as well surrender the elective franchise and let these hired supervisors and canvassers elect the Congressmen and run the Government. Such is the Federal election law which a Republican House has passed, and politicians of the Reed stamp are seeking to force upon the country, in order to perpetuate their power."

ALL candidates for county offices who have not yet had their names placed on the poll books should attend to the matter at once.

STEVENSON ARCHER got five years in the Maryland penitentiary; Matthew Stanley Quay got six years in the United States Senate. Archer was the Democratic Treasurer of a Democratic State and Quay was the Republican Treasurer of a Republican State.—National Democrat.

A BLACKSMITH SAVES THE LIFE OF A LITTLE GIRL.—Minnie Carney was perhaps as near leaving this world as anyone can be to recover. She was sick with cholera morbus, completely exhausted and unconscious. The physicians in consultation decided the case was hopeless and beyond their control. Chas. J. Newcomb, a blacksmith, walked four miles through the darkness and storm, to get a remedy he had himself used, and which he firmly believed would cure her. That medicine was Chamberlain's Colic, Cholera and Diarrhea Remedy. He obtained part of a bottle, with which he hastily returned, and gave the little sufferer a half teaspoonful, which relieved her and consciousness gradually returned. The medicine was given in broken doses, and in a short time she was well. He is positive that it saved her life, and has others in that vicinity. For sale by Power & Reynolds.

STOCKMEN who have not complied with the law in reference to procuring licenses for studs, jacks and bulls, may save themselves trouble by calling on the County Clerk at once. The grand jury is in session.

MAYSVILLE'S POPULATION.

How Many People Did the Enumerators Overlook? The City Assessor's Figures.

"The Census Enumerators must have overlooked a good many people in this city," said a prominent lawyer of Maysville a few days since. "In 1880," he added, "the census gave us a population of 5,220. Since then there have been at least one hundred new residences erected in Maysville, and they are all occupied. You can find very few vacant dwellings in town. According to the approximate figures sent you by the Supervisor last week the population now is only 135 more than in 1880. It is evident to me that a good many have been overlooked."

MR. A. N. HUFF, City Assessor, has furnished the BULLETIN some figures that bear the prominent attorney out in his statement above. When on his rounds a few months ago, Mr. Huff not only made a correct assessment of the property, but he made it a point to secure the name of every voter in the city. When he footed up his list, he had the names of over 1,500 white voters and over 300 colored voters—about 1,900 voters. Counting four people to every voter—the proportion according to the present census is a little higher than that—and it gives Maysville a population of about 7,600 in the five wards of the city. Here is a big discrepancy between the Assessor's figures and the Enumerators' figures.

MR. DAN COBB, of the Fifth ward, reports that he and his brother Robert and several of the Stickley family were never called on by the Enumerator, but Mr. John Walsh, who enumerated that ward, says he secured the names of all these. Mr. Walsh adds that in his rounds he rarely ever found the head of the family at home. In such cases he always secured the information required from some member of the family who was at home. Mr. McDonald did likewise in his rounds.

As the matter rests now there is a big discrepancy between the approximate figures reported by the Supervisor and the Assessor's returns.

The Serpent Mound.

The "Morning Call" wants to know the best way to reach the "Serpent Mound" from Maysville. A gentleman who "has been there" informs us that the best way is to make up a party and go across the country in a wagon, coach or hack. Provide a good luncheon, start, early and drive fast. The roads are fairly good (macadamized) and there are no tolls to pay. You cross the ferry at this point, (say at 6 o'clock a. m.); bowl rapidly through Aberdeen, (leaving Squire Beasley and Dr. Moore on the left); strike out boldly towards Slickaway and along the verdant banks of Big Three Mile and move directly towards the town of West Union—a distance of seventeen miles from the river, and easily reached before high noon; thence to Duncansville, (six miles); to Jacktown, (four miles); to Peebles, (four miles); to Locust Grove, (three miles); to the Serpent Mound Park, (four miles).

If you arrive early, visit the big Serpent when the long shadows are falling in the afternoon; and then, after a pleasant luncheon on the green sward beside the bubbling springs of the Park, seek such hospitality as they may offer at the old farm house on the grounds, or return, if you like, to the hotel at Peebles for the night.

Glenn Springs.

The grand opening ball and banquet of Glenn Springs will be given on Friday evening next. This resort meets the popular favor of many of our society people, and arrangements will be made to receive at least two hundred guests.

The ball room is very large and of exquisite design, without doubt the finest at any resort west of famous White Sulphur.

In abundance and variety of waters, Glenn Springs surpasses all. The rates are \$10, \$12 and \$14 per week. Carriages meet all C. and O. trains and convey Glenn guests to the Springs without charge.

At least twenty couples will attend the banquet from this city. Since last season nearly \$100,000 has been added to Glenn Springs in improvements.

Here and There.

Misses Mary and Agnes O'Donnell are visiting at Fair Play, Ky.

Miss Retta Smoot is the guest of Miss Sallie Wood, of Forest avenue.

Mr. and Mrs. S. N. Meyer, are spending a few weeks at Glenn Springs.

Mr. Holt Richeson is on a trip to White Sulphur, Richmond and Old Point Comfort.

Miss Annie Burton Sallee, of Fern Leaf, returned yesterday from a pleasant visit at New Richmond, O.

Miss Julia Leach, of Maysville, is the guest of Miss David Chenault, of Main street.—Lexington Press.

Mrs. H. Lange, of Cincinnati, is visiting relatives in Detroit, Mich., and will spend the heated term on the lakes.

Mrs. Mark Brannon and son George, of Covington, are visiting her parents, Mr. and Mrs. Martin Hanley, of Front street.

MINER'S MAXIMS!

A Shoe May Be Either a Palace or a Prison.

Prison shoes are plenty; shoes, we mean, that close up like a prison on the poor, fettered foot and leave it marked like a prisoner by the bonds it has borne. A prison is still a prison, no matter how fine the architecture. A prison shoe may be ever so pretty OUTSIDE, but inside it is a gloomy cell, a dungeon.

Palace shoes are shoes that are good outside and in; good to look at and good to wear. They are well made, skillfully finished. They are shoes that you hate to lay by, even when past service. They combine in perfection the elements of use and beauty. They are thoroughly good shoes. That's the kind WE sell. Do you wear them? WE have been 58 YEARS SELLING GOOD SHOES.

Proceedings of Both Branches of Congress.

SUNDY CIVIL APPROPRIATION.

The Bill Discussed Nearly All Day In the Senate—Amendments Offered and Acted On—The House Spends the Day Without Accomplishing Anything. Other Washington Dispatches.

WASHINGTON, July 15.—In the senate yesterday Mr. Hoar offered resolution which was agreed to, calling on the secretary of the treasury for such reports of the commission on the valuation of sugar at the New York custom house, as have not already been transmitted.

The senate then proceeded to the consideration of the sundy civil appropriation bill.

Mr. Allison made a statement of the status of the various appropriation bills: The agricultural, legislative, executive and judicial, military academy and the army bills had become laws; the consular and diplomatic bill was in the hands of the president; the District of Columbia and the fortifications bills were pending in conference; the Indian bill would be reported to-morrow; the naval, the pension, river and harbor and the sundy civil were still unacted on by the senate. The general deficiency bill was still behind.

Among the amendments to sundy civil bill were reported and agreed to by the senate: Inserting items of \$20,000 for the completion of the building and approaches of the postoffice and court house at Baltimore; increasing the item for repairs to the Chicago custom house from \$45,000 to \$100,000; inserting item of \$30,000 for public building at New London, Conn.

An item of \$80,000 for the erection of a wing to the building of the bureau of engraving and printing being reached, the old controversy as to hand and steam presses in printing currency, etc., sprang up.

Mr. Cockrell claimed the use of hand presses caused an increase of \$61,000 in the expenses of the bureau, and now \$80,000 for an additional building was called for.

Mr. Hawley said the need of additional room was entirely independent of the press question. He maintained that better work was done by hand presses.

Mr. Harris said as the result of an investigation made by Senator Hiscock and himself last year, his opinion was that steam presses did the best work.

Mr. Gorman said that the cost of hand presses over that of steam presses was only 8 to 10 per cent., and the superiority of the work of the hand presses fully justified their use and the additional expense. The amendment was agreed to.

Other amendments were agreed to as follows: Appropriating \$13,000 for repairs to the pension building; appropriating \$15,000 for five new boilers in the senate wing.

Mr. Spooner moved to increase the limit of cost of the public building at Milwaukee, Wis., by \$400,000. Agreed to.

Having disposed of fifty of the 114 pages of the bill it was laid aside.

The senate bill to further suspend for ten years the status in relation to Guana islands, was taken from the calendar and passed; also the house bill opening to settlement a portion of the Fort Randall military reservation in South Dakota, with amendments; also the senate bill to provide for the disposal of the Pagosa Springs military reservation in Colorado to actual settlers under the homestead laws.

The senate then, at 5:30 adjourned.

Nothing Done in the House.

WASHINGTON, July 15.—The house spent the entire day discussing the Atkinson bill, supplemental to the act authorizing the construction of the Baltimore and Potomac railroad in the District of Columbia. Finally it was recommitted to the committee on the subject.

Church Struck by Lightning.

SOUTH WHITLEY, Ind., July 15.—During a heavy storm the United Brethren church, of this place, was struck twice by lightning, demolishing the roof, breaking all the windows and wrecking the walls. Fire was averted. The damage is about \$1,500; no insurance.

ONE QUARTER OF A MILLION.
Such is the Number of Odd Fellows That Will Soon Be in Chicago.

CHICAGO, July 15.—The largest gathering of Odd Fellows that has ever been seen will take place here next month. It will be the annual meetings of the Grand Lodge and the grand triennial convention of Patriarchs and the Grand Lodge of the I. O. O. F. For over six weeks the local committees have been holding daily meetings and working with might and main to provide for the transportation of the visitors and their comfort and convenience while in the city, and during the past two weeks their proceedings have been participated in by Grand Sir Gen. Underwood of Kentucky, and who has given the benefit of his time and experience to the preparation.

The lowest rates ever known in railroad history have been granted to the Odd Fellows on all the routes from the Atlantic coast to the gulf, and the rates which have been conceded by the local hotel proprietors, are in many cases at more than nominal. The city council has granted permission for the temporary erection on the lake front of an amphitheater with a seating of 15,000 feet and which will be large enough to hold an audience of 30,000 people. The largest halls in the city have all been retained and Lake Front park will be fenced in for the purpose of the grand drill.

Advices received by Brig. Gen. J. P. Ellicott, chairman of the reception committee, are to the effect that over 15,000 Patriarchs in uniform and 50,000 Odd Fellows proper have already decided to take part in the event, and the probabilities are that this number will be largely increased during the next few weeks. With the visitors and their relatives and friends they will bring with them, it is estimated that fully 200,000 strangers will be in the city during the convention week. Delegates will be here from England, Germany, France and other countries. The prizes to be offered for the drills aggregate \$27,000. The great parade, which is fixed for Thursday, Aug. 7, is expected to be of a character never equaled in this country. There are 425,000 Odd Fellows within fifteen hours ride of Chicago alone, and it is expected that a feeling of western pride will induce fully one-half of them to turn out for the occasion.

A Claim for Damages.

GREENSBURG, Ind., July 15.—A Mitchell steel bridge over the stream of Haw creek, in Bartholomew county, which was recently built, gave way a few days ago under a wagon loaded with a cord of wood, badly damaging team and wagon. The owner, Daniel Heck, has filed a claim before the board of commissioners for \$500 damages.

Strike at an End.

PITTSBURG, July 15.—The strike of the boilermakers in Pittsburgh and Allegheny is practically at an end. Of the nineteen shops eight have agreed to the nine hours per day proposition. The others will doubtless give up the fight. Master Workman Evans states that by Thursday work will have been resumed in all of the shops.

He Fell from a Tree.

BUFFALO, N. Y., July 15.—A special to the Express from Cleon, N. Y., says: John Lindsay, aged about 50 years, fired three bullets from a revolver into his head this morning. It is stated that several years ago, before he became addicted to drink, Lindsay was a Methodist minister, but fell from grace. He died immediately after the shooting.

Robbed of Ten Thousand Dollars.

OMAHA, Neb., July 15.—Mrs. Floretta Russell, of Ottawa, Kan., who was on a visit to relatives in this city, was robbed of an indorsed bill of exchange for \$10,000 yesterday by John Brush and James Hogan, who had followed her here from Ottawa. She has sworn out warrants for the arrest of the robbers.

A Genuine Case of Leprosy.

QUEBEC, July 15.—It is reported on reliable authority that a genuine case of leprosy has been discovered at English bay, on the south coast of Anticosti island. The father of the family died recently of the disease. A report has been made to the government on the subject.

Church Struck by Lightning.

SOUTH WHITLEY, Ind., July 15.—During a heavy storm the United Brethren church, of this place, was struck twice by lightning, demolishing the roof, breaking all the windows and wrecking the walls. Fire was averted. The damage is about \$1,500; no insurance.

Railroad Shops Burned.

CHATAM, Ont., July 15.—The loss by the destruction of the Erie and Huron railroad shops by fire is estimated at \$35,000; insurance \$15,000.

Head for the New Silver Certificate.

WASHINGTON, July 15.—It is practically decided that the vignette of William Henry Harrison, the president's grandfather, will be placed on the new \$20 silver certificate authorized by the new silver bill. The certificates will be issued in various denominations.

Senate Rules to Be Changed.

WASHINGTON, July 15.—The senate Republican caucus last night, by a large majority, agreed that a change should be made in the senate rules to make it possible to limit debate and pass the Federal election bill. The form of the change was not agreed upon.

Bills Approved.

WASHINGTON, July 15.—The president has approved the diplomatic and consular appropriation bill and the agricultural department appropriation bill.

It is a Law Now.

WASHINGTON, July 15.—The president yesterday afternoon approved the silver bill.

Strike Still On.

LYNN, Mass., July 15.—The strike of colorers in Weber's morocco factory is still on. Mr. Weber offered thirty-seven and one-half cents per dozen yesterday, which he claims the men agreed to accept, but afterward refused. He charges them with bad faith, and now refuses to pay more than the old rate of thirty-five cents. The men demand forty cents.
